**Prior Art Citation**

**1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.**

Liu et al. (6,272,095) and Leiber et al. (US 2004/0145788), both disclose an optical disk having a recording layer capable of recording holographic information.

**Reasons For Allowance**

**2. The following is an Examiner's Statement of Reasons for Allowance:**

**Re claims 1-8 and 10-15**

The prior art of record alone or in combination does not teach or suggest the optical disk recording medium and method of manufacturing the optical disc having the combination of steps with their recited process, along with having the specific structure of the medium including a first substrate having a physically pre-formatted surface; a reflective film formed on said pre-formatted surface of said first substrate; a transparent layer with a thickness of 50-430 um formed on said reflective film; a second substrate composed of transparent material and located at a distance of certain spacing from said transparent layer; and a recording layer for hologram recording filled between said transparent layer and said second substrate, as set forth in claims 1-8 and 10-15.

**Re claims 9 and 16**

The prior art of record alone or in combination does not teach or suggest the method of manufacturing an optical disc having the combination of steps with their recited process, along with having the specific structure of the medium including forming embossed pits on a surface of a first substrate; forming a reflective film on said embossed-pits-formed surface of said first substrate; fixing a transparent plate with a thickness of 50-430  $\mu\text{m}$  on the upper surface of a holder, applying a liquid recording material on said transparent plate, and pressing a transparent second substrate against said recording material to form a recording layer composed of said recording material between said transparent plate and said second substrate, thus forming a triple-layered structure; and bonding said reflective-film-formed first substrate and said triple-layered structure together, locating said reflective film faced to said transparent plate, as set forth in claims 9 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
